

A scatter plot showing the relationship between Wins (blue dots) and Losses (red dots) for 100 teams. The plot is divided into three horizontal regions by two dashed lines. The top region shows a strong negative correlation, where teams with many wins have few losses. The middle region shows a positive correlation, where teams with many wins also have many losses. The bottom region shows a weak correlation, where wins and losses are scattered. A legend in the top right corner identifies the blue dots as 'Wins' and the red dots as 'Losses'.
