

A scatter plot showing the relationship between Wins (blue dots) and Losses (red dots) for the 2016-2017 season. The plot features two distinct clusters of data points, one in the upper half and one in the lower half of the image, representing two different groups or categories. The legend in the top right corner identifies the blue dots as 'Wins' and the red dots as 'Losses'.

A scatter plot showing the relationship between Wins (blue dots) and Losses (red dots) for 100 teams. The plot is divided into two main horizontal clusters. The upper cluster contains a dense group of points, while the lower cluster is more spread out. A legend in the top right corner identifies the blue dots as 'Wins' and the red dots as 'Losses'.

A scatter plot showing the relationship between Wins (blue dots) and Losses (red dots) for the 2016-2017 season. The plot features two distinct clusters of data points, one in the upper half and one in the lower half of the image, representing two different groups or categories.
