GOOG

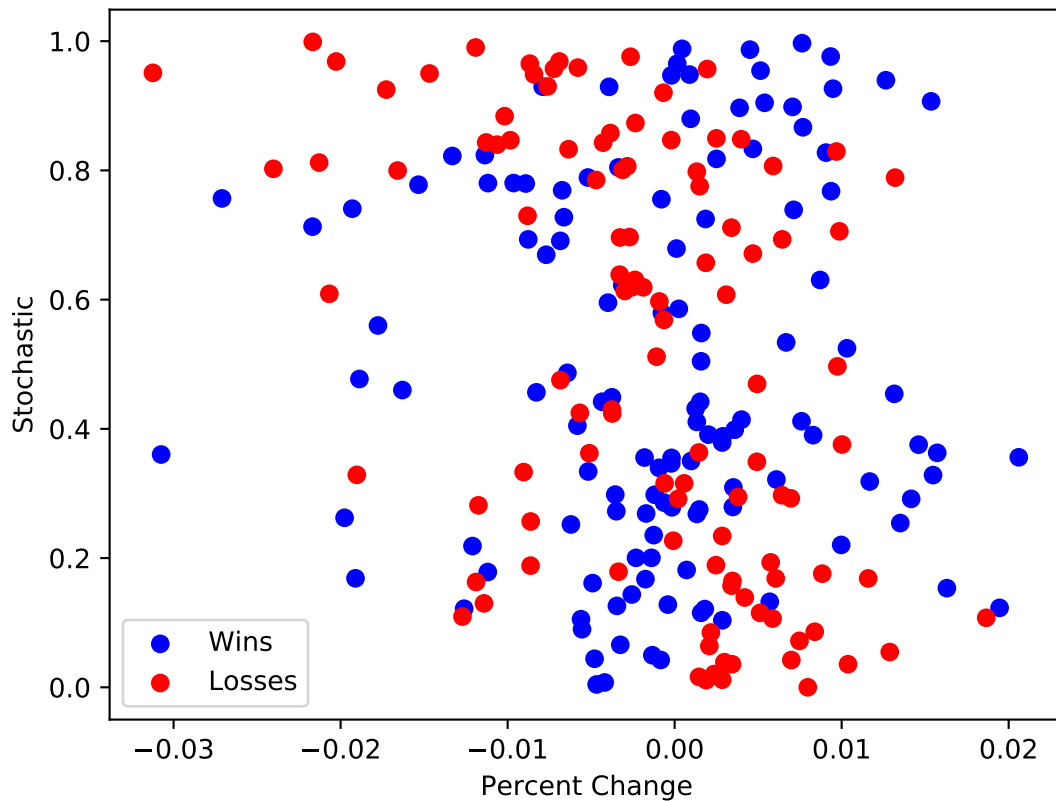

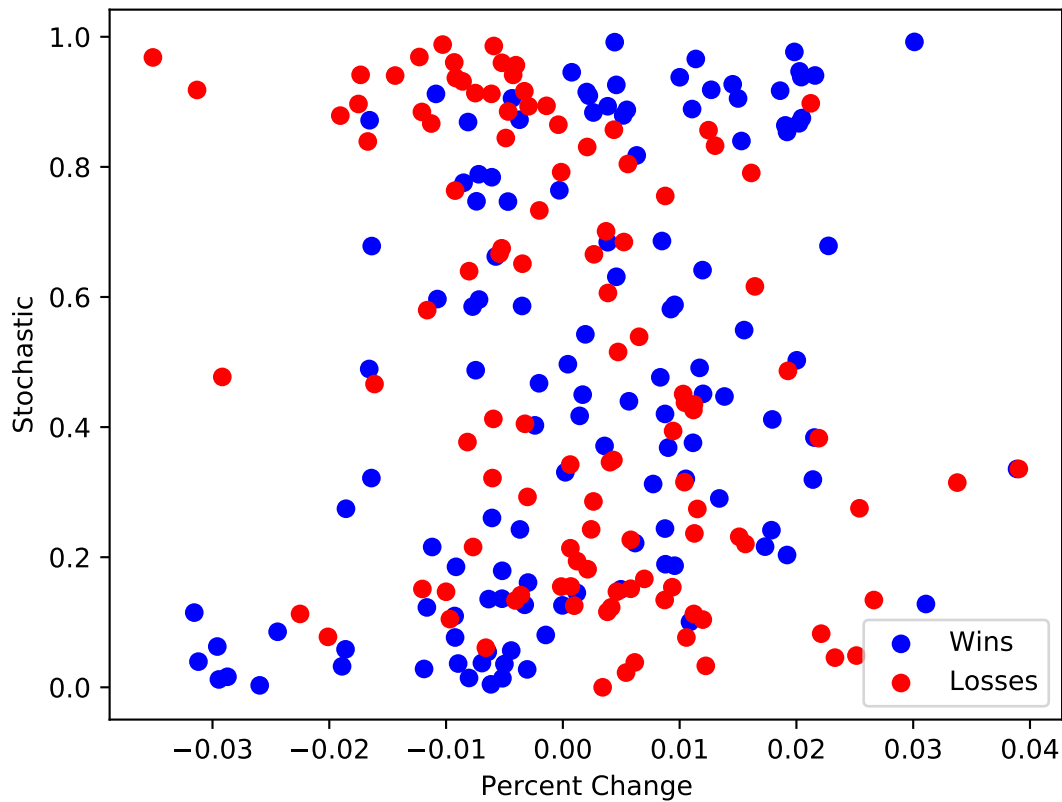

A scatter plot showing the relationship between 'Wins' (blue dots) and 'Losses' (red dots). The plot is enclosed in a black rectangular frame. The 'Wins' series is represented by blue dots, and the 'Losses' series is represented by red dots. The data points are scattered across the plot area, with a higher density of points in the upper-left and lower-right quadrants. A legend in the top-right corner identifies the two series: 'Wins' (blue dot) and 'Losses' (red dot).

A scatter plot showing the relationship between two variables, 'Wins' (blue dots) and 'Losses' (red dots). The plot is enclosed in a black rectangular frame. The 'Wins' data points are clustered in the upper-left and lower-right regions, while the 'Losses' data points are clustered in the upper-right and lower-left regions. A legend in the bottom-left corner identifies the colors: blue for 'Wins' and red for 'Losses'.
