

A scatter plot showing the relationship between 'Stochastic (14)' on the x-axis and 'Stochastic (15)' on the y-axis. The x-axis ranges from 0.0 to 1.0, and the y-axis ranges from 0.0 to 1.0. Data points are categorized into 'Wins' (blue dots) and 'Losses' (red dots). The plot shows a dense distribution of points, with a higher concentration of 'Wins' in the upper right quadrant and 'Losses' in the lower left quadrant, though there is significant overlap between the two groups.

0.0                      0.2                      0.4                      0.6                      0.8                      1.0
