

A scatter plot showing the relationship between 'Stochastic (14)' on the x-axis and 'Wins' (blue dots) and 'Losses' (red dots) on the y-axis. The x-axis ranges from 0.0 to 1.0, and the y-axis ranges from 0.0 to 1.0. The plot shows a dense distribution of points, with a higher concentration of 'Wins' (blue) in the upper right quadrant and 'Losses' (red) in the lower left quadrant. A legend in the bottom left corner identifies the blue dots as 'Wins' and the red dots as 'Losses'.
